

Frontier Regulatory Control Pack — FAA-N16 Demo Extract

Source: Notice on Recommendations on Investment Products · Issued 28 July 2011 · Last updated 29 December 2025

Curated fictional internal demonstration control pack. Not the official MAS notice, not legal advice, and not proof of regulatory compliance. Consult the authoritative notice and Compliance or Legal owners.

How to use this control pack

Use the stable control IDs below to explain deterministic recommendation gates in the Frontier RM demonstration. Always consult the authoritative notice and the appropriate Compliance or Legal owner for interpretation.

FAA-N16-P08 · FAA-N16 paragraph 8

Reasonable basis

Give due consideration to the client's investment objectives, financial situation and particular needs.

Applicability: all-recommendations · Gate: objectives-financial-situation-needs

FAA-N16-P11 · FAA-N16 paragraph 11

Collect and document client information

Collect and document objectives, risk tolerance, employment, financial situation, income, commitments, current portfolio and investment materiality, subject to applicable exceptions.

Applicability: all-recommendations · Gate: profile-completeness

FAA-N16-P12 · FAA-N16 paragraph 12

Confirm no material change

Prior information may be relied upon only where the client confirms there are no material changes at the time of transaction.

Applicability: prior-profile-reliance · Gate: material-change-confirmation

FAA-N16-P14 · FAA-N16 paragraph 14

Incomplete information warning

Highlight that client information forms the recommendation basis and inaccurate or incomplete information may affect suitability.

Applicability: all-recommendations · Gate: information-warning

FAA-N16-P16 · FAA-N16 paragraph 16

Customer Knowledge Assessment

Conduct a Customer Knowledge Assessment before recommending an applicable unlisted Specified Investment Product, subject to the notice.

Applicability: unlisted-sip · Gate: cka-current

FAA-N16-P27E · FAA-N16 paragraph 27E

Customer Account Review

Conduct a Customer Account Review before recommending an applicable Listed Specified Investment Product, subject to the notice.

Applicability: listed-sip · Gate: car-current

FAA-N16-P28 · FAA-N16 paragraph 28

Needs analysis

Analyze client information and identify a suitable product based on the information obtained.

Applicability: all-recommendations · Gate: needs-analysis

FAA-N16-P29 · FAA-N16 paragraph 29

Product suitability factors

Consider product nature, key risks, tenor, fees and required liquidity when determining suitability.

Applicability: all-recommendations · Gate: product-risk-liquidity

FAA-N16-P30 · FAA-N16 paragraph 30

No suitable product

Inform the client where no suitable product can be identified.

Applicability: all-recommendations · Gate: no-suitable-product

FAA-N16-P31 · FAA-N16 paragraph 31

Explain and document basis

Explain the basis for the recommendation and document that basis.

Applicability: all-recommendations · Gate: documented-basis

FAA-N16-P35 · FAA-N16 paragraph 35

Recommendation documentation

Document objectives, financial situation and needs, the reasonable basis, and disadvantages based on the client's circumstances.

Applicability: all-recommendations · Gate: documented-disadvantages

FAA-N16-P36 · FAA-N16 paragraph 36

Client recommendation document

Furnish a summary of information gathered and the recommendation and its basis when making an investment recommendation, subject to the notice.

Applicability: all-recommendations · Gate: client-document

FAA-N16-P41 · FAA-N16 paragraph 41

Communication records

Maintain records of advisory communications for applicable Listed Specified Investment Products.

Applicability: listed-sip · Gate: communication-record

FAA-N16-P41K · FAA-N16 paragraph 41K

Selected-client pre-transaction checks

Complete applicable documentation review and call-back controls before the effective date for selected clients or clients of selected representatives.

Applicability: selected-client-transaction · Gate: pre-transaction-checks

FAA-N16-P41Q · FAA-N16 paragraph 41Q

Pre-transaction records

Keep records of applicable pre-transaction processes, methods, assessments and determinations for at least five years.

Applicability: recommended-transaction · Gate: pre-transaction-records

Retirement safeguard used in the demo

Retirement invokes an internal enhanced review of income, liquidity, commitments, objectives, horizon, risk capacity and applicable knowledge or experience. It does not automatically set a client to risk score 1, and this control pack does not claim that MAS universally prohibits derivatives for retired clients.
